

FREQUENTLY ASKED QUESTIONS

🐾 Why is my dog smelly after boarding? 🐾

At our facility, we use hospital-grade cleaning products to maintain a hygienic environment. However, dogs can pick up various scents from bedding, other dogs, and the boarding environment. Additionally, we have pools and water features in our play yards. Keep in mind that your dog will be having fun while staying with us, and sometimes that means getting a little dirty while they play and enjoying their time here. A quick bath will help freshen them up after their exciting stay! Please let us know if you want us to get your pup scheduled for a grooming appointment.

🐾 Why is my dog thirsty after boarding or daycare? 🐾

It's common for dogs to appear thirsty when they return home. This isn't due to a lack of water while boarding or daycare but rather their excitement to be back in a familiar environment. While boarding and playing in daycare, your dog had consistent access to fresh water at all times. If you have concerns, please don't hesitate to reach out.

🐾 Why is my dog tired after boarding? 🐾

Your dog had a busy and stimulating time with us, full of activity and play. While boarding, routines differ from the sedentary lifestyle many dogs have at home. It's normal for them to need extra rest as they recuperate from their fun stay.

🐾 Why is my dog energetic after boarding? 🐾

Your dog is excited to see you again! Returning home can bring a surge of happiness and energy. This behavior usually subsides after the first night back.

🐾 Why is my dog hungry after boarding? 🐾

Some dogs eat less when away from the familiarity of home, even though they have full access to their meals while boarding. Once they're back in their comfort zone, their appetite typically returns.

🐾 Why is my dog's voice hoarse after boarding? 🐾

Some dogs may bark more during boarding due to the new environment and interaction with other dogs. This can lead to temporary hoarseness, which usually resolves quickly. If you notice ongoing issues, please contact us or your veterinarian for advice.
